

Job Aid

Dynamo is the way to automatically quote large numbers of leads provided by a lead source such as Sales Genie or Coles. The agent has the option to print or create a mail merge file.

*ALL lists must be scrubbed through Allstate DNS to prevent from contacting current customers.

*In order to prevent potential "time-outs" while running Dynamo, ensure that your sleep settings are set to "Never".

Did You Know...

... QuoteBurst is a result of collaboration of Allstate agent Bruce Thompson and IT guru Stephen Bentley?

...The products and services provided by QuoteBurst are offered exclusively to Allstate agents?

...QuoteBurst offers **free** technical support for all our products through www.quoteburst.com or 1-800-527-9395?

...Everytime you start a QuoteBurst program you will have the latest version of the software automatically downloaded **free**?

...QuoteBurst is your employee to handle all your Internet leads (Typhoon), bulk mailing leads (Dynamo) and requoting (FlashBack) needs?

...Our goal is to make quoting as easy as possible for you so you can concentrate on others ways to make your business more profitable?

Let's get ready to start Dynamo
